

8/22 The Stone Age

Pre-History - period before people recorded historical events.

know - artifacts found + studied
"not always exact"

Neandertal 60,000 yrs ago
Paeleolithic - before written history
"stone age"
used stone, animal skins
bones
used some remedies for
meds.

Nomads - move with seasonal changes

find shelter
find food

Lack of farming skill

Lack of home building skill

* fine

* could cook

* tools: stone + wood (most important skill)

→ moss was like "duct tape" for
stone age people

→ minimal things = had to move often
